

Please, please require every program to have closed captioning. I rely on it and I am so frustrated when a show I want to watch has no closed captioning. This is totally unfair for people who are Deaf like me. I have the right to "hear" (read) as what my hearing associates do, and I believe my civil rights are being violated on programs that do not have closed captioning. Thank you, also, for providing closed captioning--I do realize that it is not easy.
